RE: CERTIFICATION VALIDITY EXTENSION

Dear Robert,

Standard(s)	License Number(s)	Current Expiry Date(s)
9001:2015 Certification	QMS44622	20/07/2023
45001:2018 Certification	HSM42112	17/06/2024

Under the provision of IAF ID 3 Management of Extraordinary Events or Circumstances Affecting ABs, CABs, and Certified Organizations, SAI Global is writing to you to inform you that the validity of your certification(s) listed above has been extended to **20th January 2024** beyond the original expiry date(s) based on completion of your re-certification audit “remote” component.

The validity extension is based on the current extraordinary events related to a **“Cyber Attack”**. During this validity extension period, there will be no change to the expiry date of your certificate or the lifecycle of the certification. A valid certificate with new expiry date based upon the original expiry date **can only be issued** dependent on the following:

- The re-certification audit “on-site” component is completed within this permissible extended period as re-certification activities includes both remote and on-site components.

Should re-certification activities not be completed within the permissible extended period your certificate will be deemed as expired and the certification process will need to be recommenced.

Yours sincerely,

Amanda Whitmore
Client Services Specialist
SAI Global Assurance
